Prins Autogassystemen B.V
Holland

Ljubljana, 15.11.2010

Subject: LPG conversion system supplier

Prins Autogassystemen B.V. Holland, represented by IQ Sistemi d.o.o. Slovenija is our key supplier of LPG conversion systems.

AC-Mobil, d.o.o., distributor of Honda cars in Slovenia, at the moment has among its authorised workshops 4 workshops which are certified to install Prins LPG systems. Main benefit of the Prins offer is a full concept of cooperation, that includes attractive prices, regular maintenance and warranty service conditions – full conformity to new cars warranty. Warranty for new cars is not lost when installed Prins LPG system.

All Prins LPG systems are designed and configured to particular Honda models. Offered logistic solutions allows us to keep stock at low level.

Furthermore Prins provides regular technical and commercial trainings for technicians, mechanics and salesman regarding LPG-VSI systems.

Prins also shares the responsibility for accordance to EU and Slovenian law and all homologation approvals required by EU.

Kind regards!
